

DOCKER CLI INSTALLATION

Date	29 October 2022
Team ID	PNT2022TMID34851
Project Name	SKILL AND JOB RECOMMENDER

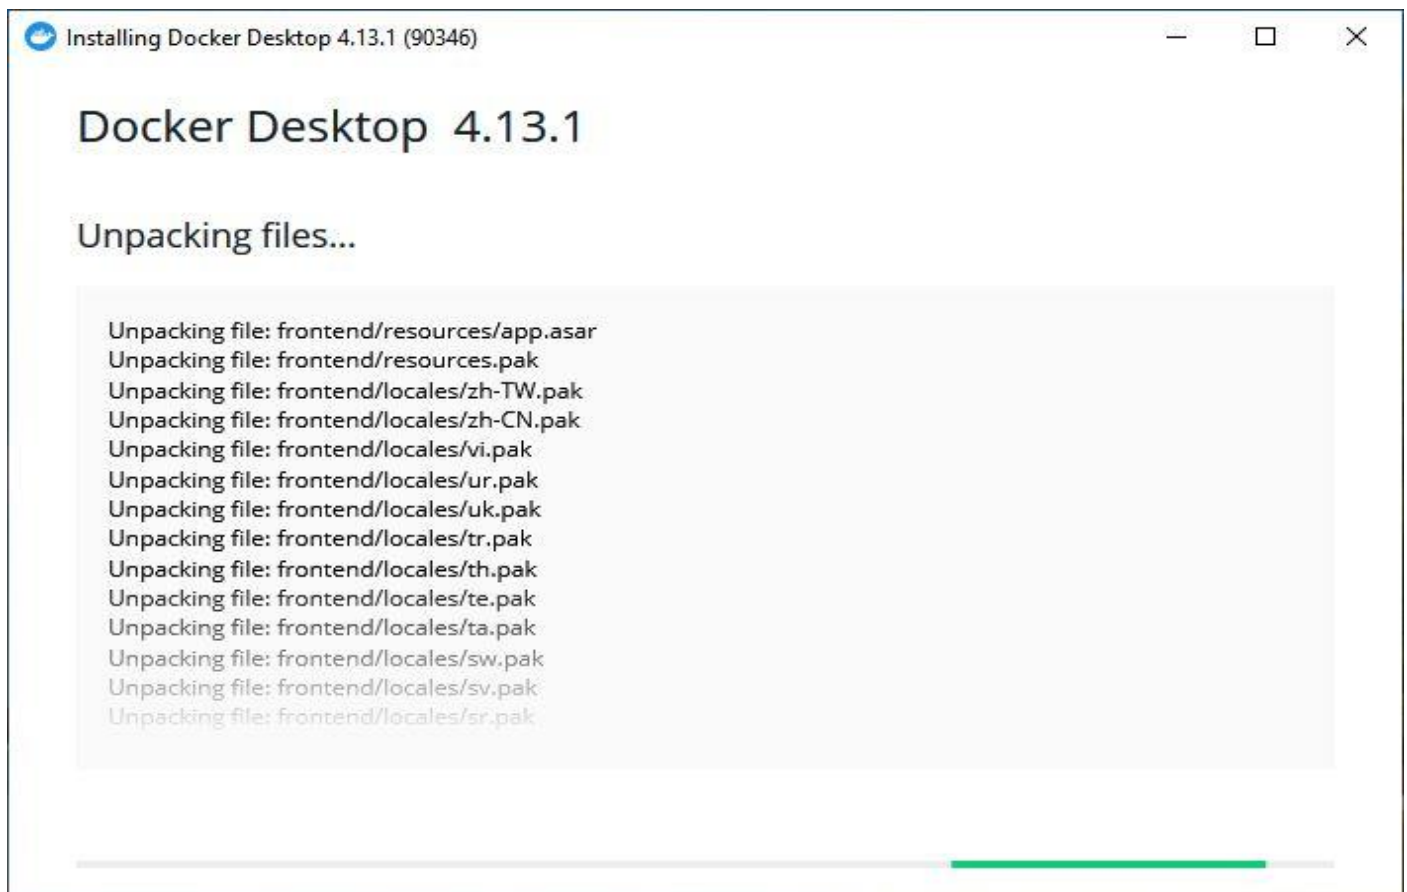

Step 1: Download Docker Desktop from docker.com

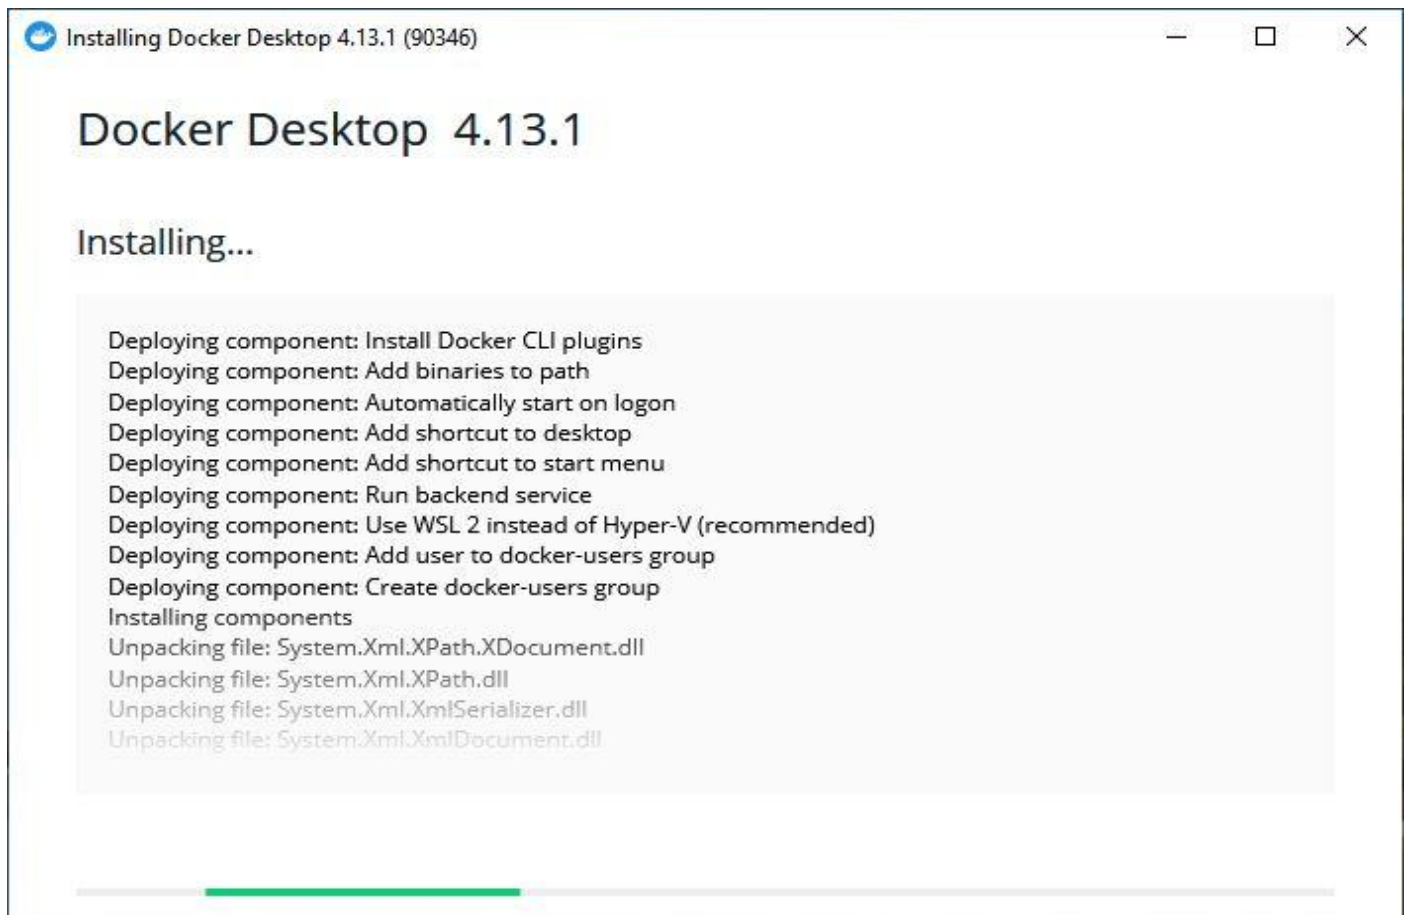

Step 2: Double click the downloaded file to start the installation process.

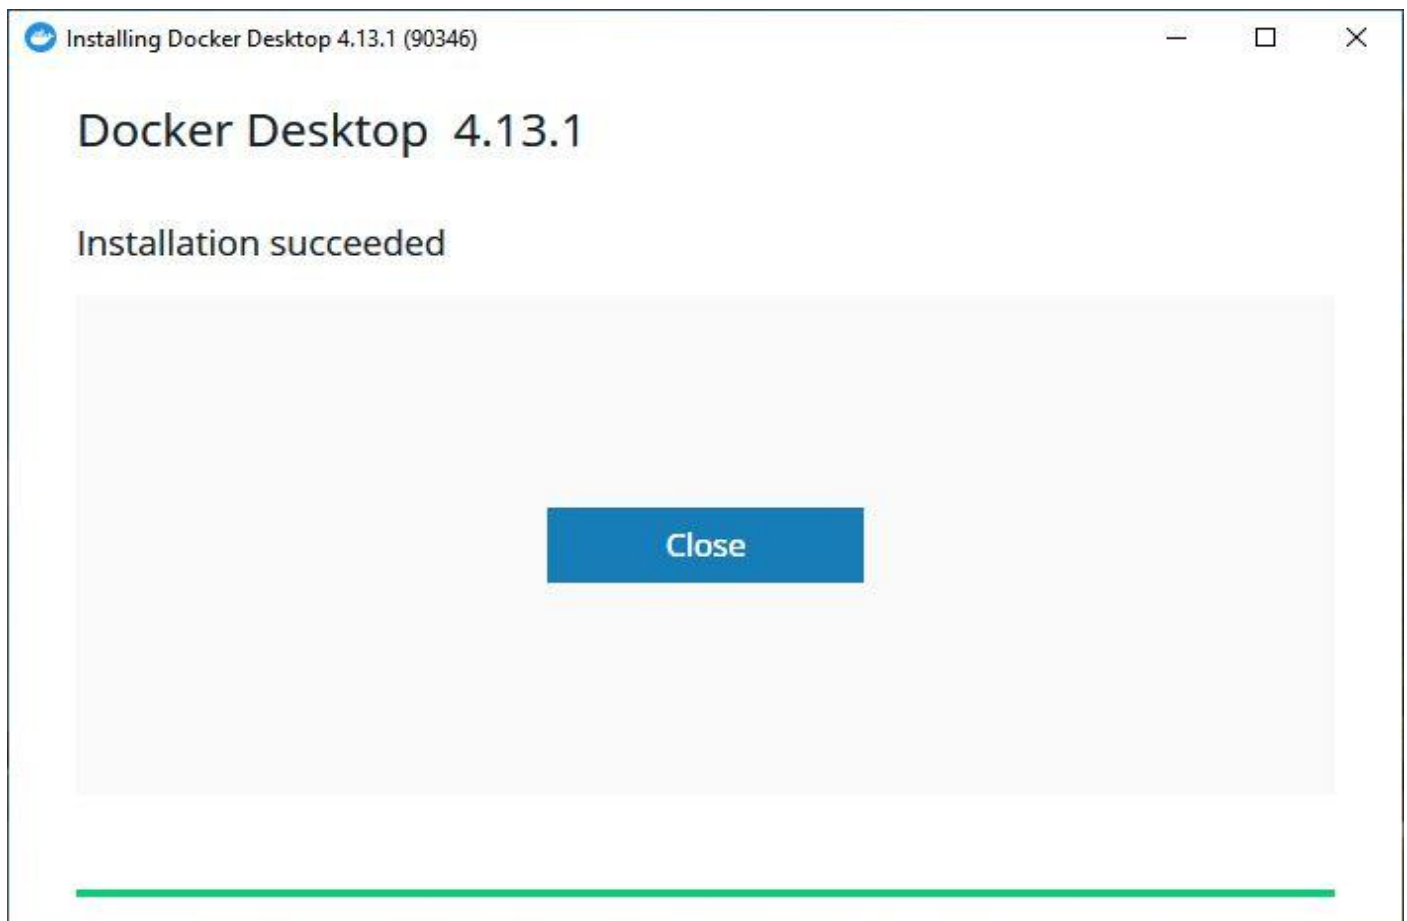

Step 3: Unpacking of files

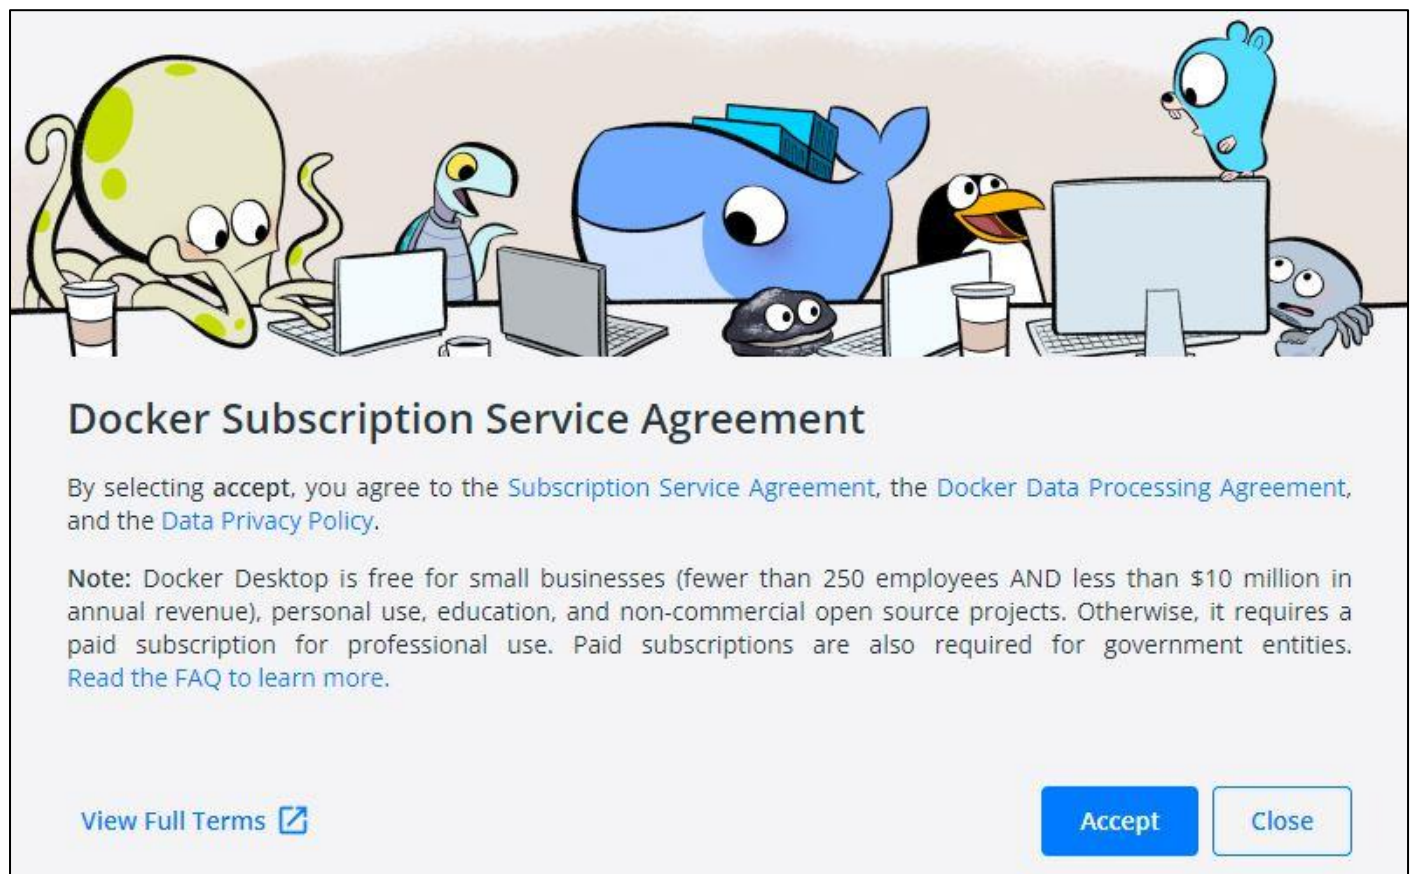

Step 4: Installation of components.

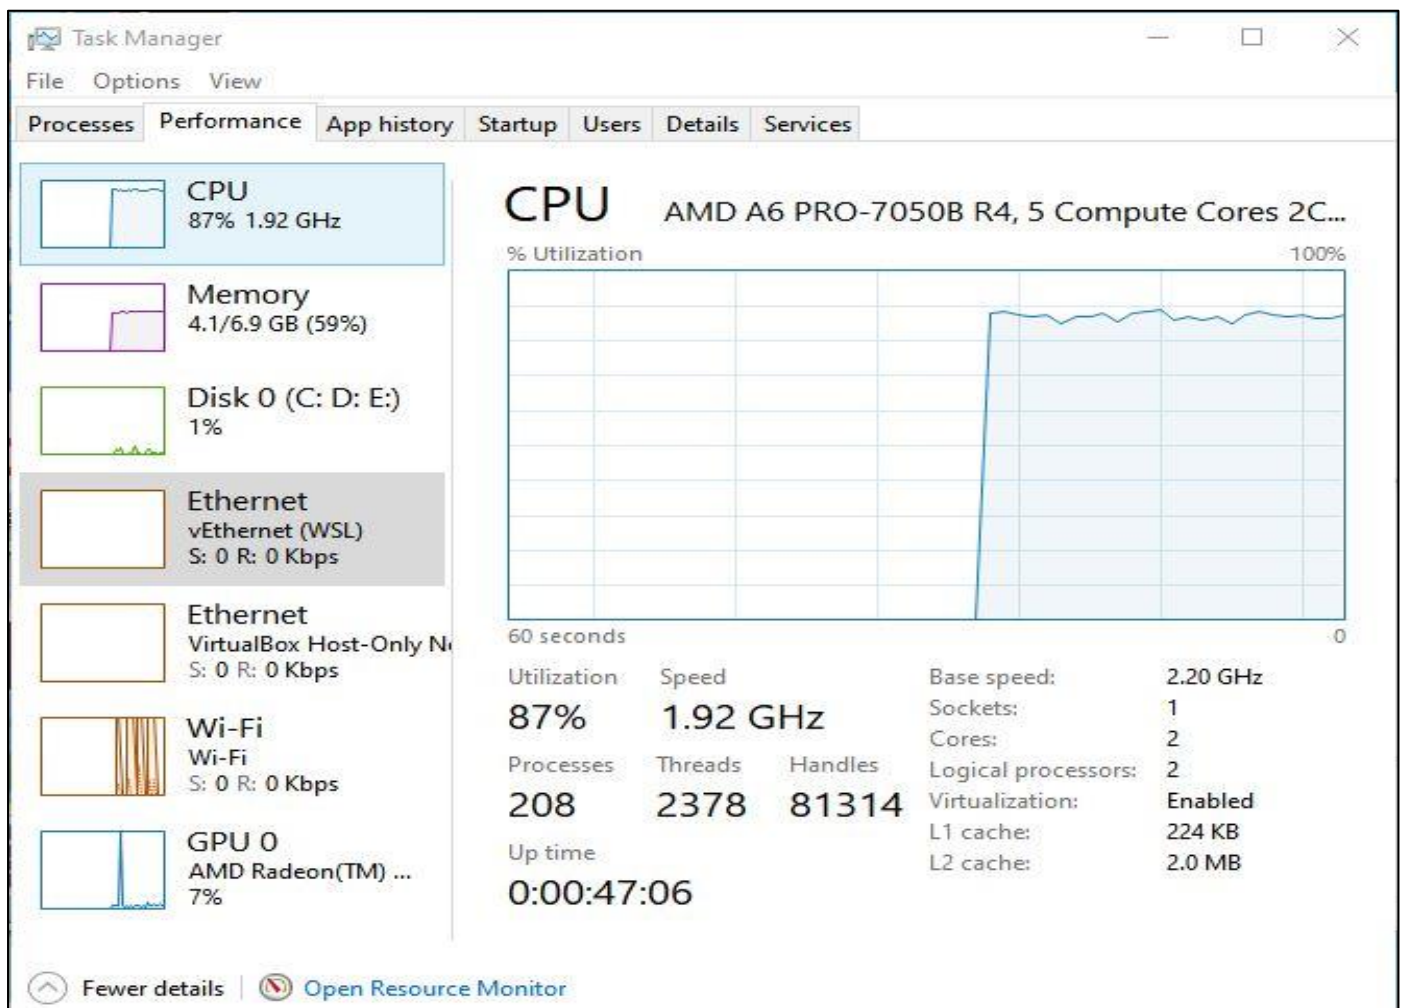

Step 5: Installation completed.

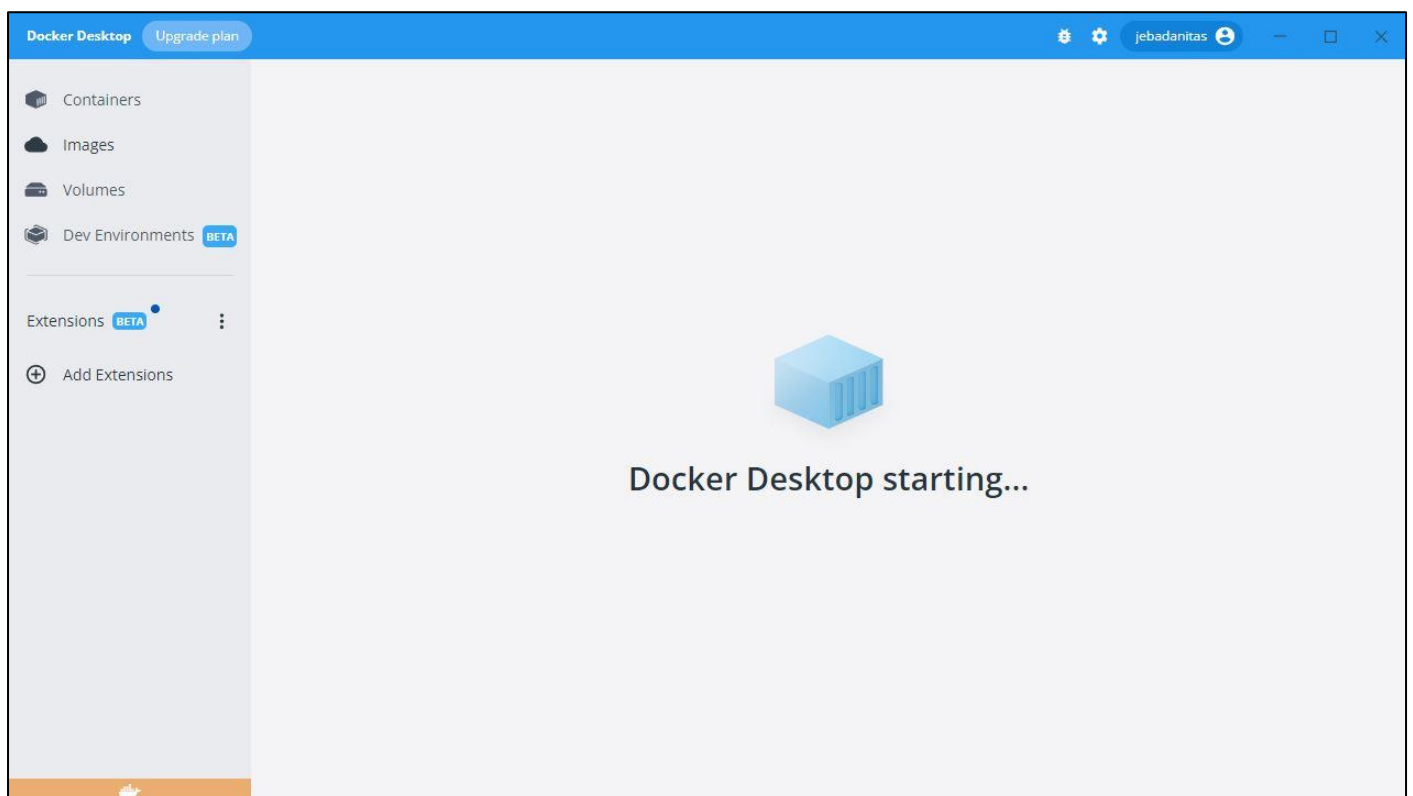

Step 6: Accept the terms and conditions.

Step 7: Task manager to view performance and virtualization must be enabled.

Step 8: Open Docker Desktop

Step 9: Registration

The screenshot shows the Docker Hub website in a web browser. The browser's address bar displays 'hub.docker.com'. A purple banner at the top of the page reads 'Wasm is a fast, light alternative to Linux containers — try it out today in the [Docker+Wasm Technical Preview](#)'. The Docker Hub logo and a search bar are in the top left. Navigation links for 'Explore', 'Pricing', 'Sign In', and 'Register' are in the top right. The main heading on the page is 'Build and Ship any Application Anywhere', followed by the text 'Docker Hub is the world's easiest way to create, manage, and deliver your team's container applications.' On the right side, a 'Get Started Today for Free' registration form is displayed. The form includes a link for existing users to 'Sign In', input fields for 'Username' (containing 'Jebadanitas'), 'Email', and 'Password' (masked with dots), and checkboxes for product updates and terms agreement. A reCAPTCHA 'I'm not a robot' checkbox is at the bottom of the form. The Windows taskbar at the bottom shows various application icons and the system clock indicating 9:10 PM on 05-Nov-22.
